THE @APPLY IN TAILWIND >

(LEARNING WITH GEMINI)

SWIPE TO SEE THE CODE

GEMINI

```
1 <div  
2   class=  
"bg-green-100 border border-green-400 text-  
green-700 px-4 py-3 rounded relative"  
3 >  
4   <span class="font-bold">Success!</span>  
5   <span class="block sm:inline">  
6     Your account has been saved.</span>  
7 </div>
```

THE CHALLENGE

CSS CLASS

Create a CSS class named .alert-success.

THE @APPLY RULE

Write the @apply rule for it using the classes above.

THE SHOW HTML

Show me how the HTML would look after you are done.

MY RESPONSE

```
1 .alert-success {  
2   @apply  
3   bg-green-100 border border-green-400  
4   text-green-700 px-4  
5   py-3 rounded relative;  
6 }  
7 /* and the html would look with the main  
div with only one class i.e alert-success  
in it while the rest of html would be the  
same. This was my POV but i am not senior  
so please feel free to correct me and sho  
w me the  
8 best way. */  
9
```

GEMINI RESPONSE

YOUR CODE IS EXACTLY CORRECT. YOU
SUCCESSFULLY ABSTRACTED ALL THOSE UTILITY
CLASSES INTO A SINGLE SEMANTIC CLASS.

```
1 /* In your CSS file */
2 .alert-success {
3   @apply bg-green-100 border border-green-400
4   text-green-700 px-4 py-3 rounded relative;
5 }
```

[LINKEDIN.COM/IN/MRSYEDMUZAMMIL](https://linkedin.com/in/mrsyedmuazzamil)
[GITHUB.COM/MRSYEDMUZAMMIL](https://github.com/mrsyedmuazzamil)

GEMINI RESPONSE IN HTML

```
1 <div class="alert-success">
2   <span class="font-bold">Success!</span>
3   <span class="block sm:inline">
4     Your account has been saved.</span>
5 </div>
```

GEMINI RESPONSE

SENIOR THINKING

YOU MENTIONED YOU AREN'T A SENIOR YET, **BUT**
YOUR INTUITION HERE IS SPOT ON. A SENIOR
DEVELOPER PRIORITIZES MAINTAINABILITY.

BY MOVING THOSE STYLES TO **.ALERT-SUCCESS**,
YOU MADE IT SO THAT IF THE DESIGN TEAM
DECIDES "SUCCESS MESSAGES SHOULD BE
BLUE NOW," YOU ONLY HAVE TO CHANGE IT IN
ONE PLACE, NOT SEARCH THROUGH 100 HTML
FILES.
